Statement of Reasons

Previous consultations indicate that residents support residents parking restrictions to improve parking options for local residents. These proposals aim to resolve this issue and improve parking and safety issues along the roads.

The restrictions are proposed to avoid danger to persons or other traffic using the road or for preventing the likelihood of any such danger arising, for facilitating the passage on the road or any other road of any class of traffic (including pedestrians) and to preserve/improving the amenities of the area through which the roads run.
